Sr Shashadri Mysore

Derway of Mysore

Sir, Your private Secretary Mr. K. Krishna Rao informed me by letter dated 19. January, that I should submit my proposal through Mr. P. Ananda Rao & I beg therefore as a sort of introduction state firstly as follows:

I am a German subject - 30 1/2 years old, was educated in that country in the best technical & mercantile schools that a person can get, practical training as well for many years in different countries as a manufacturer of soaps, candles, essential. Heat oils & other chemical products - which industries were carried on in our family for the last 3 generations.

I have been with Gimm & Co as Technical Manager of the Lion Works for nearly 3 years; As I didn't see my way to stay longer with them I resigned on 1st of January. This year for the last 2-3 months Gimm & Co made many proposals to me to keep up connection with them; but as I saw (by my 3 years experience) no way for myself - they agreed to let me by my taking the plant & raw materials over on my own &c. with the permission to use 'Lion Brand' :-

To carry on this industry in a small way - I am prepared to have enough capital (by self resource) by arrangements with Gimm & Co & other bank; but as I would like to clear every thing soon - & as I must increase the sale of soaps & other products at least tenfold I have to deal all over India, Burma, Ceylon & perhaps also Europe - & as I am convinced that the East of India

Mysore

would benefit in one way and another -

beg to propose :

1.) That the Govt of Mysore is requested to allow me to carry on a business on my own name - a. factory - to make

Yes, (princip.) all kind of Soaps, ^{creams} candles, essential oils other chemical products - within the Bangalore City Municipal

2.) That I could most possibly employ about 100 people the Works for the 1st year of beginning - if the Govt assigns me in my want! (During Saison perhaps up to 500 or more)

3.) That the Govt of Mysore is requested to let Ground for factory Bangalore - to a considerably cheap price or gratis - but there must be water & it must be healthy:

4.) That I would select the place which I think is best for any enterprise by Govt. in connection therewith - ^{situated} ~~namely~~ hereafter! -

5.) That Govt of Mysore is requested to protect me in their state.

6.) That I shall be most willing to do my utmost best as a manufacturing brewer & chemist to make brogues, herbs, fruits, country manufactures Goods - many things found & grown in Mysore - (not yet known) known to the mercantile World in Europe.

7.) That Govt of Mysore is requested to give me a helping hand with (their surplus) capital say about 50,000-100,000 of Rupees on low interest for a term of 5-10 years.

8.) That I would give all (factory, stock on hand, cash, outstanding Rs) as security to the State & that Govt is entitled to have any time a look in the true state of Handing.

by means of
an Octroi
Tolls 10/

That Govt of Mysore is requested to introduce a Tax
on imported Soaps in their Govt state - to increase
their revenue & to support country industry.

That I shall do my best - (by aid of my new &
self invented system process -) to ^{sale - good pure}
Soaps made from vegetab. oil only - ^{& for high class purposes} cheap, so
that especially the poor as well the rich may have
the benefit by buying my medical Soaps -
chiefly made for skin ^{skin} diseases.

Can be

11./ That Govt is requested to consider - giving spirit ^(only)
duty free for manufacture of Soaps & Perfumery
& to charge cost price of spirit only - as this system
is in use in Germany & France; Spirit store -
simply kept under Govt control & servant.

12./ That I should be allowed to restill such spirits -
already used - from one Soap pan into another
to reduce wastage.

13./ That Govt of Mysore is requested to consider (with
the help of the Superintd. of Botanical Gardens
whether is advisable to start near Bangalore
or surrounding large Rose fields - with the
object to produce Rose - oil & Rose Water,
as the demand of such is greater than the
production. Bangalore in regard of geograph.
situation is one of the best places in the
World - for this special culture - as it is
far better than Bulgaria & Turkey - two
crops can be carried a year -; the price
of pure oil is at home per oz. about 30-40

This culture could be started at once in a very small way - perhaps in the Palace, & the beam private Garden.

14.) That I would be most willing to assist Govt. of Mysore by doing so - ~~as~~ to get a first class product ^{of silk} (into) Market - also to give any time my opinion - on any other industry suggested for working - by others - in the country.

Many of these suggestions might be explained better personally - but this is left

to you to consider. & I am awaiting your reply with interest - whenever you will grant me a interview at what time.

Bangalore.

Sir,

I beg to refer to my application to the Govt of Mysore
January last to my interview at which you
consented to grant me all my requests
referring to finance.

I am now ready to start the works by the 15th of this
month, as the confirmation has not yet reached
up to date. I humbly request - to be so
kind to announce it officially.

Part of - 1. 5. 6. 9. 11. 12 - are mostly referred to;
the most important soap comes from Trichy &
in case Govt of Mysore would favour me
in asking what tax - should be introduced,
I would be most glad - to suggest.

As a matter of information I beg to say -
that after all Messrs. Bimby & Co & myself
have drawn all arguments previous -
made - & so I am using my own

Sir,
In reference to my letter dated June 1st 1894, before yesterday's interview I beg to request that Mysore Govt. to assist me with the loan asked for, I would be able to repay after 12 months of service in Mysore Govt. I am a property holder and a successful business man. I am a student and I have been trying to get the required money from a married native who has furnished me the money for weeks but he says he cannot invest any thing. I am in a very trying position as I am ready for manufacture - I should pay (for the coming from Europe) at once some Rs 1000. I have to meet bills now. I promise to do for Govt. any thing - what I do in my first application - in January last. I hope the Govt. of Mysore could see the way to my application soon - as any delay - would leave me in a worst position than I am in now. I request you & the Chief Secretary to visit my li.

kinds of Soap and eventually Candles, essential oils and other chemical products within Bangalore City Municipal limits, and asks for some help from Government.

2. Mr. Hund asks for protection for his manufactures by the introduction of a tax on imported Soaps. Such a tax however can be levied only ^{as} ~~on~~ Octroi duty in Towns. The point will be noted for consideration.

3. Mr. Hund also asks for the grant of Country Spirits duty free and at cost price for manufacturing purposes

purposes and to distill
Such Spirits already used,
with a view to reduce wastage.
This can be done. The Excise
Commissioner will be good
enough to arrange for the
supply of arrack as desired
to be ~~methy~~lated by Mr

Hund, himself, in the presence
of an Excise Officer and to
be used for manufacturing
purposes only.

By Mr Hund suggests
the desirability of starting

5. Lastly, Mr. Hund asks
for a loan on the security

of his property. Govern-
-ment think that some
arrangement ~~as has been~~
~~made for loans~~, may be
made, and money advanced
on the security of building,

will be considered further.
